Dear New Vista family and friends,

We hope you and your family are safe and healthy during this time.

New Vista is aggressively mitigating the virus and protecting your loved ones.

We continue to test our staff and residents weekly.

We are in direct contact with the health department and are following all the necessary steps to mitigate the virus. As per state guidelines we are testing all residents in our facility again as a precaution. We will also continue with our weekly staff testing.

The facility is working together with the NJDOH and CDC to ensure the safety and well-being of our residents and staff. We are abiding by all federal and state guidelines and strictly enforcing protocols, policies, and procedures. We have isolated the positive and symptomatic cases to our designated COVID-19 unit. We have a designated a security guard at the front entrance of the unit to ensure that our residents are safe and secure.

Staff are tested weekly & are screened each time they come to work for fever and symptoms. Any evidence of a symptom warrants the staff member to be immediately sent home. Internally, appropriate Personal Protective Equipment (PPE) is plentiful and worn by all staff when required without exception.

Information is and will continue to be provided to families vigilantly. Should your loved one have any change in health status you will be notified immediately, and the facility will continue to send you updates on the facility's COVID-19 progress.
